Listele cu scolile sunt aranjate in ordine alfabetica, dupa localitate.

Datele regasite in aceste rapoarte sunt datele pe care reprezentantii scolilor participante la concurs le-au declarat ca fiind colectate. Aceste date au fost comparate cu datele primite de la colectorii parteneri (Retim si Viele 2005). Deoarece diferentele au fost foarte mici, ori in plus, ori in minus si nu puneau problema modificarii clasamentului, am decis sa folosim drept oficiale datele furnizate de profesorii coordonatori de la fiecare scoala participante.
